h) establishing a prescription claims processor that:

i) receives claims over the electronic communications network for prescription benefits from a participating pharmacy;

ii) adjudicates the claims in accordance with the subscriber's eligibility profile; and

iii) upon approval of a claim, charges the subscriber's credit account for accepted claims via the electronic communications network, the amount of the charge being equal to the discounted price of the prescription minus a predetermined co-payment which is tendered by the subscriber to the pharmacy at the time of fulfilling the prescription;

i) making first payment via the electronic communications network, by the creditor to the prescription benefits manager, the first payment being equal to the amount charged to the subscriber's account minus a first predetermined service fee to be retained by the creditor;
